

REMARKS/ARGUMENTS

This paper is submitted responsive to the Office Action mailed February 12, 2010. Reconsideration of this application in light of the accompanying remarks and amendments is courteously solicited.

In the aforesaid action, claims 10, 13-15, 17 and 18 are allowed, claims 16, 21 and 25 rejected and the drawings and specification objected to.

By the present response, rejected claims 16, 21 and 25 have been cancelled without prejudice, and the drawings and specification have been amended to address the Examiner's concerns.

Specifically, Figure 6 has been amended to add reference numerals to the structures mentioned. Reference numerals have been added for the opening 200, top edge 202, bottom edge 204 and side edges 206. All three sections of each support part 21 are now numbered (21, 21a and 21b), and vertical bending lines 208 are also numbered. In addition, the language from claim 15 has been added verbatim to the specification, with the new reference numerals added, and this is believed to address the objection to the specification as well. Care has been taken to avoid the addition of any new matter.

It is believed that all objections to the drawings and specification have been addressed, and all rejected claims have been cancelled. Thus, the application is believed to be in condition for allowance.

An earnest and thorough attempt has been made by the undersigned to resolve the outstanding issues in this case and place same in condition for allowance. If the Examiner has any questions or feels that a telephone or personal interview would be helpful in resolving any outstanding issues which remain in this application after consideration of this amendment, the

Examiner is courteously invited to telephone the undersigned and the same would be gratefully appreciated.

It is believed that no fee is due in connection with this response. If any fees are required, please charge same to Deposit Account No. 02-0184.

Respectfully submitted,
Kyung-Ho Yoon et al.
